Customer Service Leader

Great local candidate with e-commerce expertise! This pro spent 3+ years as an e-Commerce Manager where they were responsible for researching all the products they would upload to their employers website, including pictures, descriptions and pricing. They very much enjoy doing research and love learning more about products, in order to create an accurate description. This customer-focused professional is very familiar with Google Docs and Excel - where they utilized spreadsheets on a daily basis to record sales. They offer excellent communication skills and holds a Bachelor's degree in Business Administration.

Manufacturing Cost & Accounting Pro

Highly experienced senior-level manufacturing cost and general accounting

professional offering an impeccable work ethic, extensive attention to detail, and a proven record of success in delivering solutions. This professional's experience includes General/Cost Accounting, AR/AP, general ledger, account reconciliations, financial statements, E-Banking, and Certified ADP Payroll processing. They excel at multitasking in a fast-paced environment, meeting lead times and deadlines, while interfacing with others at all levels to ensure they meet organizational and team goals. This awesome pro is proficient in all Microsoft Office Applications, Asset Suite, SAP and PeopleSoft and is capable of creative problem-solving, utilization of critical thinking skills, and practical communication expertise. Offering a Bachelor's degree in Accounting and Business Management and a MBA, this professional is a great catch!

Quality Manager

Impressive local quality professional with 15+ years of experience, a servant leadership style and has managed up to ten direct reports. This pro is comfortable interfacing with all departments, including CEO, Engineering, Operations, Quality, Materials, Production Planning, Purchasing, Customer Service, and clients. Their experience in automotive compliance comes from working in a position where they maintained all aspects of ISO 9001; additionally, this pro is knowledgeable with TQM, Lean, Six Sigma, QMS, and PPAPs. This awesome pro offers an Associate degree in Science and is an excellent communicator.

Project Engineer

Performance-driven professional with over 18-years of hands-on engineering experience with a talent for designing manufacturing processes that promote maximum efficiency, while requiring minimal maintenance. This pro has a proven ability for proactive troubleshooting, ensuring smooth operations and optimal functionality. Their strong leadership skills motivate colleagues, persuade clients and forge strong long-term alliances. This forward-thinking professional has demonstrated capabilities to introduce new products and processes to meet ever-changing market trends. They are an excellent communicator and hold a Bachelor's of Applied Science in Design Engineering Technology.

Administrative Professional

Detail oriented professional with a background in e-Commerce that is a self-starter and enjoys research and works well independently. She currently works with several manufacturing companies researching products, loading data, and updating websites. They offer advanced Microsoft Office/Excel skills and hold an Associate's degree in Accounting and a Bachelor's degree in Business. Offering excellent communication skills, this pro is a "go getter" with a great sense of urgency!

After graduating from Culver Military

Academy, Sydney began her career journey by attending West Point Military Academy and now studies civil engineering at the University of Notre Dame. Recently, Sydney has been working at multiple jobs on behalf of TalentSource. This is what she has to share about her experiences:

"The staff at TalentSource takes your personal goals and makes them their own when placing you in a position. They are easy to work with and are very resourceful. It has been an amazing experience."

Job Seekers Are Gaining Control over Hiring

The U.S. labor market is facing an abnormal summer: Millions of open jobs and nowhere near enough applicants have created a shift in power that has given job seekers the upper hand in recruiting and hiring.
